

Other Issues

"In furtherance of my overall campaign to be an OPEN and ACCESSIBLE member of the Metro Council, I feel that it is important to have a page solely devoted to my positions on important issues facing the 18th District and our city. To be truly "open," I feel that it is imperative that I clearly state my opinion on important issues rather than use vague political jargon so that you know where I stand."

-John Ray Clemmons

I will continue to post my position on key issues on this webpage in the coming weeks. Please continue to check in to find out where I stand on issues of importance to the 18th District and our city. If you would like to know where I stand on issues, please email me or use this website to post your questions.
